## **DETAILED ACTION**

### ***Response to Amendment***

1. This Office Action is in response to Applicant's Amendment dated March 14, 2008 in response to USPTO Office Action dated November 14, 2007.

The cancellation of claims 2-3 and 17 and the amendments to claims 1, 4 and 7-9 have been noted and entered in the record.

The amendment to claim 1 and the merit of Applicant's remarks relative to claim 1 are sufficient to place the application in a condition for allowance as set forth hereinbelow.

2. The 35 USC – 112 rejection of claims 8 and 14 is herewith withdrawn in light of the term “substantially” being deleted from said claims 8 and 14.

The Objection to claim 1 is overcome with the deletion of the phrase "at least one of a capacitive" from line 6 of claim 1.

### ***Allowable Subject Matter***

3. Claims 1, 4-16 and 18-20 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Relative to claims 1, the major difference between the teachings of the prior art of record (USP 4,952,031, Tsunoda et al.) and that of the instant invention is that said prior **does not teach** a system comprising a carrier and a matrix display with a substrate and display pixels, the matrix display comprises-comprising display conductors for supplying display signals to the display pixels, the carrier comprising carrier conductors for carrying input signals,

Art Unit: 2629

wherein the system further comprises means for transport of the input signals from the carrier conductors of the carrier to the display conductors of the display via the substrate, wherein said means for transport are formed such that the display conductors and the carrier conductors are positioned at opposite sides of the substrate with respect to each other to Obtain a capacitor or mutually coupled inductors between associated ones of the display conductors and the carrier conductors, to capacitively or inductively transfer the input signals on the carrier conductors to the display conductors, the substrate forming a dielectric medium of the capacitor or a magnetic medium of a transformer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Applicant's Remarks***

5. Applicant's remarks regarding claims 4, 7, 10, 13-16 and 19-20 are moot in light of the allowance of said claims.

***To Respond***
